

The Cat Stylist

Signature Cat Range

WHOLESALE GUIDE

About the range

The Cat Stylist Signature Cat Range is a thoughtfully developed range of feline-specific grooming tools and products, created by a Certified Feline Master Groomer to support the comfort, health and wellbeing of cats through better grooming care at home.

Each product has a clear purpose: to make essential grooming simpler and more effective while supporting healthy skin and coat, regular nail care and the prevention of common grooming concerns. Professional grooming knowledge is combined with practical, easy-to-use products that owners can confidently use as part of their cat's regular care.

We believe cats deserve the same level of consideration and attention to their grooming needs as any other companion animal. By giving owners the right tools and confidence to use them, we can support feline wellbeing, strengthen the bond between cats and their guardians, and improve the lives of cats one comb stroke at a time.

Why Retail These Products?

- Cat-specific products developed by a Master Feline Groomer
- Supports feline comfort, wellbeing and essential home grooming
- Helps owners maintain healthy coats and nails between professional visits
- Encourages positive, confidence-building grooming experiences at home
- Easy for professionals to demonstrate and recommend
- Premium, retail-ready packaging designed for an attractive in-store display

More than an add-on sale.

Give your clients practical tools to continue quality feline care at home.

SHEDDING COMB

Key Benefits

- Removes loose & shedding coat to help manage excess hair before it ends up around the home.
- Helps maintain coat condition by working through the coat from skin to tip.
- Makes home grooming simple with an effective tool suitable for regular use on all coat types.
- Suitable for all breeds and coat types.

How to Sell It

Recommend the Shedding Comb to owners concerned about shedding, excessive hair around the home, minor tangles or clumps forming in the coat, or those wanting to maintain their cat's coat between professional grooms.

It is also an easy product to demonstrate during an appointment—show the owner how much loose coat and tangles it removes from their own cat.

Best recommendation: Pair with the Finishing Comb for a complete home grooming routine.

FINISHING COMB

Key Benefits

- Finds hidden tangles that can easily be missed by brushing over the surface of the coat.
- Smooths & finishes the coat after shedding and general grooming.
- Ideal for detail areas including the face, legs, feet and other areas needing a more precise comb.
- Suitable for all breeds and coat types.

How to Sell It

Recommend for preventing tangles and matting, or as a Comfort Comb for cats that are unsure about being groomed. Start with gentle combing around the head, cheeks and facial scent glands to help build positive associations and confidence with home grooming.

The Finishing Comb also acts as a final coat check—if it can't pass comfortably through the coat, there may still be a tangle requiring attention.

Best recommendation: Use on its own as a Comfort Comb for cats learning to enjoy home grooming, or after the Shedding Comb as the final step in a complete coat-care routine.

NAIL TRIMMERS

Cat-specific nail trimmers designed to make routine nail maintenance simple and precise without the unnecessary bulk of larger pet nail clippers.

Key Benefits

- Designed specifically for cats with a small cutting area suited to feline nails.
- Precise, clean trimming makes it easier to see and control where the nail is being cut.
- Supports regular nail care to help prevent long, sharp or overgrown nails.
- Suitable for all cat breeds and other small animals.

How to Sell It

An ideal recommendation following a nail trim, kitten appointment or routine veterinary/grooming visit.

Showing owners how to safely identify where to trim their cat's nails can make them much more confident about maintaining them at home.

CLEAN CAT SHAMPOO BAR

Key Benefits

- Created specifically for feline grooming rather than using a general-purpose pet shampoo.
- All-in-one formula: hypoallergenic, brightening, degreasing and conditioning.
- Simple & convenient to use with the bar applied directly where product is needed.
- Compact & economical with less packaging, less mess and no bulky shampoo bottle.
- Highly concentrated with a long shelf life. Lasts up to 20 washes.

How to Sell It

Recommend to owners who need to bathe their cat between professional appointments, particularly after messy accidents, dirty coats or whenever bathing at home is needed.

It also gives professionals an easy alternative to recommending dog shampoos or leaving owners unsure about which products are appropriate for their cat.
